Rahul Kumar

Software Development Engineer (SDE)
C++ | Data Structures & Algorithms | Backend Developer
Punjab, India | Github : https://github.com/Rahulkumar240 |
Linkedin : https://www.linkedin.com/in/rahulkumar397/

Professional Summary

Results – driven Computer Science undergraduate with strong expertise in Data Structures & Algorithms, Object – Oriented Programming and backend Systems. Proven ability to solve complex problems through clean and optimized code. Hands on experience across internships, competitive programming platforms and scalable projects. Actively Preparing for Software Development Engineer & Backend Roles.

TECHNICAL SKILLS

Languages: C++, Python, Java, Javascript
Core CS: Data Structures & Algorithms, OOPs, Operating Systems, Networking
Frontend: HTML, CSS, React.js
Backend: Node.js, Express.js, REST APIs, DBMS, CRUD Operations
Databases: SQL, MySQL
Tools: Git, Github, Linux Basics

Competitive Programming & DSA

- Solved 200+ DSA Problems across Leetcode, GeeksforGeeks, Code360 and Codolio
- Strong proficiency in Arrays, Strings, Hash Tables, Two Pointers, Binary Search, Recursion, Dynamic Programming
- Max Leetcode Streak: 12 days | Active Problem Solving Consistency

PROJECTS

Contact Book Management System | C++
• Designed and implemented a modular contact management system using OOP and STL containers
• Implemented add, search, update, delete, and view operations with persistent file-based storage
• Improved data retrieval efficiency and ensured clean separation of concerns

AI Resume Analyzer | MERN Stack
• Built a full-stack web application to evaluate resumes against role-based skill requirements
• Implemented keyword matching and scoring logic to simulate recruiter screening
• Improved resume relevance insights for freshers and job seekers

INTERNSHIP EXPERIENCE

Python Development Intern – Cognifyz Technologies
• Automated data cleaning, preprocessing, and analysis workflows using Python
• Built analytics dashboards using Pandas, NumPy, and Matplotlib
• Reduced manual effort by approximately **40%** through automation

Cybersecurity Intern – Future Finders Ltd
• Worked with Kali Linux, Nmap, Burp Suite, and Hydra to simulate security attacks
• Performed network analysis, firewall testing, and log monitoring

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering
I. K. Gujral Punjab Technical University (2023 – 2027)

CERTIFICATIONS & ACHIEVEMENTS

- Amazon Data Structures & Algorithms Certification
- JPMorgan Chase Software Engineering Job Simulation (Forage)
- Oracle Cloud Infrastructure – Data Science Professional
- Adobe India Hackathon – Qualified Coding Round
